7. Are the elders giving a good lead in field service? The servant body is to be commended for their efforts in the field. Two of the elders continue as reg. pio. while the other two avg. 15.4 hours per month. The MS are also doing well, two of them sharing in the aux. pio. activity and avg. as a group about 19 hours. While the amount of time has increased there is a continuing need to make sure they are actually working with the different pubs in their CBS groups.

8. What are your observations as to the spiritual condition of the congregation? The congregation has shown some very encouraging trends in the last six months. They have reached a two year peak in the field ministry avg. 11.8 hours per month which is almost a 6 hr per month increase over last visit. While much of this is due to the vigorous exertion of a few strong publishers, there has also been general improvement in that the number of irreg and low hr pubs has decreased. Meeting attendance has also seen some nice improvement with 4 of the 5 meetings being attended by 100% of pubs. whereas last visit three meetings were below 100%. Especially noteworthy is the CBS going from the lowest in attendance to the highest this time.

9. What are the needs of the congregation and what did you do during the visit to meet those needs? Nice improvement is also seen in the productivity of the friends as they have doubled their magazine placements and the number of return visits. In addition to this bible studies have almost tripled over the last six months. While there has been improvement in field service activity, it is still an area of concern as irreg and low hr publishers still represent over 25% of the cong. The elders can do a great deal to stimulate the friends by shouldering their responsibility to work with the friends in the ministry. They need to develop a systematic approach to this, working their way progressively thru their CBS groups. (KS pp 50-53, 57-61)

10. What specific things would you suggest that the body of elders work on in the coming months and why? (Please discuss these with the body of elders.)
1) At the next elders meeting, which should be held soon, the brothers need to follow thru on the direction of the Society in their letter to this body (SCL:SSN October 16, 1992). While the brothers have read the letter as a group, they have yet to "as a composite body of elders review" the material presented in the KS book Unit 4a as was suggested. This is needed as there have continued to be difficulties on the body due to a failure to communicate and show honor to one another. Their relationship as a body needs to be given top priority. Related material that could be
